"You are His delight!"

February – May 2019
Istanbul, Turkey
Batumi, Georgia
Yerevan, Armenia
Poland

This past trip I ministered in the streets, prayed, connected people to the local church, prophesied, planted seeds, cast vision, empowered and encouraged God's people, spoke in churches and taught English.

In Istanbul, Turkey, I hit the streets where I talked and ministered to the Muslim community. In Kadikoy, I visited an amazing prayer room ministry. I prayed with a refugee from Syria and a young girl. She was so hungry to know more

about Jesus, I gave her the phone no. of someone in the prayer room ministry, since I was leaving that day. She called her within hours!

In Batumi, Georgia, I went and taught English in a one room house with sometimes as many as 15 children.

Also in Batumi, I went on a school field trip to a nursing home to minister to the

elderly. This is Tamuna, a precious woman who would not let me go. God's Love is so powerful that even when you can't speak the language, they feel the language of His Love that transcends!

In Armenia, I was a judge in a speaking contest. My heart was moved to hear their dreams and hearts. I encouraged the winner that in Jesus we find who we really are meant to be.

In Poland, I was surprised by the Spirit-filled, on-fire churches that I visited. I ministered at one where the people were so hungry, they cried in repentance and God's power fell! It was

stunning! I ministered to my relatives, who are very religious, and saw God provoke them to ask questions about my faith, and why I believed the way I did.

What I grew and learned in this trip was that God is SO much bigger than anything I was facing in front of me. I experienced the God that is Faithful, will never leave me, and will empower me to do the crazy and impossible!

I spent two months working in a private school in Batumi. I was creating artwork and bulletin boards throughout the whole school. I had great favor, walking through the halls carrying His heart, changing the atmosphere where teachers and students were impacted! I also helped in the classrooms loving on the children and teachers. People were drawn to the God in me that I was able to share the testimony of who Jesus is in my life.

Two precious ones that I was able to pray and prophesy on in Turkey.
